

CATALIN AVARVAREI

HubSpot CMS & CRM Developer | CRM Integrations & Web Development

☎ +40771190628 @ avarvareicatalin@gmail.com 🔗 <https://linkedin.com/in/catalin-avarvarei/> 📍 Bucharest

SUMMARY

Web Developer with 10+ years of experience across HubSpot, WordPress, and frontend implementation, including 6+ years working with HubSpot. Experience includes custom CMS modules and templates, HubDB solutions, WooCommerce websites, and responsive interfaces built from Figma designs.

Hands-on HubSpot CRM experience includes properties, pipelines, workflows, reporting, permissions, record customization, and migration-related configuration. Currently expanding into Revenue Operations, building on this experience through training and practical work in lifecycle management, data quality, lead qualification, and process alignment.

EXPERIENCE

02/2015 - Present

Bucharest

● **Founder & Web Developer — HubSpot, WordPress & CRM**
Duo Design Advertising

- Deliver HubSpot CMS and WordPress websites, including custom modules, templates, responsive layouts, and flexible content-management features.
- Translate designs into functional interfaces using HTML, CSS/SASS, and JavaScript.
- Support HubSpot CRM configuration, including workflows, reporting, and record customization.

10/2025 - 07/2026

● **HubSpot CRM & Integration Developer**
DataArt

- Supported a Salesforce-to-HubSpot migration through CRM configuration and migration-related implementation tasks.
- Configured properties, pipelines, workflows, reports, user access, and record customization to support sales and marketing processes.

12/2023 - 06/2026

● **HubSpot CMS / Frontend Developer**
ApprovalMax

- Developed HubSpot CMS pages and reusable modules from Figma designs using HubL, HTML, CSS/SASS, and JavaScript.
- Built interactive pricing functionality with currency selection, monthly/yearly billing toggles, organization-count controls, and synchronized pricing updates.
- Created responsive components with flexible editing options for the content team.

09/2022 - 10/2025

Berlin, Germany

● **HubSpot CMS / Frontend Developer**
charles

- Developed custom HubSpot CMS modules, templates, and landing pages using HubL, HubDB, HTML, CSS/SASS, and JavaScript.
- Built a Resource Hub combining blog content and HubDB data, with search, filtering, pagination, spotlight content, and asynchronous content loading.
- Integrated HubSpot APIs through Cloudflare Workers to retrieve and normalize content while keeping API credentials outside the browser.
- Supported CRM configuration, including properties, pipelines, workflows, and reporting.

11/2022 - 09/2023

Bucharest, Romania

● **Frontend Developer**
Adapta Robotics

- Built and maintained responsive WordPress layouts, reusable sections, and custom website components.
- Contributed to a subscription-based React application through UI component development, frontend updates, and ongoing maintenance.
